

Exoplanet Exploration Program Analysis Group (ExoPAG) Presentations

Thursday, 7 January 2010			
Speaker	Topic	Duration	Start Time
James Kasting	Introduction	5	1:00
Douglas Hudgins	ExoPAG Charter	10	1:05
Michael Meyer	MEPAG Overview	15	1:15
	Discussion	30	1:30
James Kasting Victoria Meadows	<u>Topic 1:</u> What do we need to know to characterize an Exoplanet?	25	2:00
	Discussion	50	2:25
	<i>Break</i>	15	3:15
William Reach Thomas Greene Aki Roberge	<u>Topic 2:</u> Local Zodiacal Light Exozodiacal Dust & Planet Imaging Exozodiacal Dust (Debris Disks)	40	3:30
	Discussion	65	4:10
	Adjourn		5:15
Friday, 8 January 2010			
David Bennett	<u>Topic 3:</u> What do we need to know about planetary system architectures, and how can we obtain this information?	25	8:30
	Discussion	35	8:55
	<i>Break</i>	15	9:30
Alycia J. Weinberger Bruce Macintosh	<u>Topic 4:</u> Contributions to Exoplanet Studies with Ground-based Extremely Large Telescopes	40	9:45
	Discussion	45	10:25
Wesley Traub Peter Lawson	Public input and discussion: What problems should the ExoPAG be looking at? --Double-blind studies of Exoplanet --Technology development program --ASMCS study reports	50	11:10
	Adjourn		12:00
